

*Performance! Release*

September 19, 2011

## ***Performance! Release 10.6270.1***

Flowserve is pleased to announce interim release of Performance! **10.6270.1** the latest update to the Industry's foremost Control Valve Sizing, Selection and Project Management software.

This is non-mandatory but highly recommended update to the Industry's foremost Control Valve Sizing, Selection and Project Management software.

Bugs fixed - Issue # 9306, 9309, 9312, 9315

---

0009306: Invalid Base Multiplier Error when pricing valve with Alliance Agreements  
Both Deer Park and Springville are experiencing an "Invalid Base Multiplier" error when pricing valves with alliance pricing.  
<http://www.flowserveperformance.com/performtracker/view.php?id=9306>

0009309: Alliance pricing does not work with the new build 6270  
When pricing an alliance project it says "invalid base multiplier" and put CF in most of the pricing fields.  
<http://www.flowserveperformance.com/performtracker/view.php?id=9309>

0009312: When I go to price valves under this alliance, I get an error message stating, "invalid base multiplier".  
<http://www.flowserveperformance.com/performtracker/view.php?id=9312>

0009315: Unable to use alliance price multiplier for DOW/Dupont/Clanese/Eastman/Invista  
<http://www.flowserveperformance.com/performtracker/view.php?id=9315>

**Thanks to all who contributed to this release.**
